DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Gauronski et al.

Referring to claim 1, Gauronski et al. discloses an image data transfer system (Fig. 2) comprising an image information reading apparatus 6, 7 for reading image data representing an image from a sheet having the image recorded therein (col. 2, l. 38-48) and an image display apparatus 52 connected to the image information reading apparatus by a network, the image data read by the image information reading apparatus being transferred to the image display apparatus and the image display apparatus displaying the image data as a visible image (col. 4, l. 21-24), wherein

the image information reading apparatus comprises a buffer memory 56 for storing the image data for the sheet and sequentially stores in the buffer memory the image data obtained at the time of reading the image data while sequentially outputting the image data from the buffer memory (col. 5, l. 25-28)(Figs. 8, 9).

Conclusion

 The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Shimura et al. discloses a radiation image read-out apparatus comprising a read-out component, an image processing component, and a menu item display and selection component.

Hishinuma discloses a radiation image recording and reproducing system comprising a recording section, a read-out section, a reproducing section, and a signal format converting section.

Hejazi discloses a storage phosphor imaging system.

Ito discloses an apparatus for performing image processing.

Fellegara et al. discloses a patient identification and X-ray exam data collection system.

Some et al. discloses an image forming apparatus.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Van Handel whose telephone number is 571.272.5968. The examiner can normally be reached on Monday-Friday, 8:00am-5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chris Kelley can be reached on 571.272.7331. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
